Website Policies Waiver

By signing this waiver, _____ ("Client") acknowledges that fuseStarter ("Developer") informed Client that applicable state, national, or international law may require Client's website to have a Privacy Policy. Developer are not attorneys, and does not provide Privacy Policies as a service, and is not responsible for Client business complying with any applicable privacy laws.

However, Developer has an affiliate relationship with a third-party privacy policy and terms and conditions generator service, and Developer can assist Client with linking those policies to Client website's home page. Client is under no obligation to utilize Termageddon, there are other generators available, but Termageddon is the one with which Developer has an affiliate relationship and recommends. Please note, should Client choose to use Termageddon's services, Client relationship will be directly with Termageddon, governed solely by their Privacy Policy and terms of service.

Please select **your plan** for your website's policies:

_____ I will provide Developer with website policies and understand it's my sole responsibility to update the policies when the laws change and will notify you when I have an updated Privacy Policy that needs to be put on my website. I also agree to pay a **$100 development fee** to incorporate/update the policies on my website if I am on the **Foundations** Support Plan (fee *does not* apply to **Builder** and **Architect** level support plans).

_____ Please set me up with an annual Termageddon license. I understand that I will have access to the license through the Termageddon dashboard, where I can generate and update my policies. I also agree to pay a one-time, $100 setup fee for fuseStarter to implement the webpages and Termageddon's code onto my website.

_____ I am choosing not to have any policies on my website or will research, install, and update my policies, on my own.
